Our Services

Our vision is built on a commitment to serve with the highest standards in supporting the creation and protecting of beautiful families.

IHD is a California-based, high complexity clinical laboratory providing high-touch, customer experience-driven laboratory services to IVF clinics across the country. Established in 2010, we pride ourselves on being at the forefront of fertility testing, offering first-in-class laboratory services for all providers. Our extensive array of testing platforms for SIP, gestational, FDA donor, and other panels are utilized by facilities across the nation, with rapid turnaround times and insurance billing capabilities that compete, if not surpass, with other national laboratories.
