

IHD’s “Assure” family of testing provides high-quality molecular diagnostics to all providers, and is a superior method to traditional culture technique. The combination of improved sensitivity, specificity, and faster turnaround times compared to culture is a valuable diagnostic tool in the clinician’s toolbox and IHD is proud to support providers around the country with our testing platform.

CONFIGURATIONS *

TEST NAME	CODE
Molecular UTI, Basic All Bacteria Pathogens	4191
Molecular UTI, Comprehensive All Bacteria Pathogens + Fungi	4192
Full List of Pathogens on Back Page	

* Independently orderable pathogens and customizable panels available

- Molecular technique providing far greater accuracy than culture
- One cup solution
- Preliminary results with medication recommendations via Sanford Guide within 30 hours of receipt of specimen
- Reflex antibiotic resistance gene and susceptibility testing upon certain positive pathogens
- Post-collection test add-on options available
- No refrigeration required

LIST OF PATHOGENS

Fungi

Candida albicans

Candida auris

Candida glabrata

Candida parapsilosis

Bacteria

Acinetobacter baumannii

Actinobaculum schaalii

Aerococcus urinae

Alloscardovia omnicolens

Citrobacter freundii

Citrobacter koseri

Coagulase-negative staph

Corynebacterium riegelii

Enterobacter aerogenes

Enterobacter cloacae

Enterococcus faecalis **

Enterococcus faecium **

Escherichia coli

Klebsiella oxytoca

Klebsiella pneumoniae

Morganella morganii

Mycoplasma hominis

Pantoea agglomerans

Proteus mirabilis

Proteus vulgaris

Providencia stuartii

Pseudomonas aeruginosa

Serratia marcescens

Staphylococcus aureus **

Streptococcus agalactiae (GBS)

Ureaplasma urealyticum

Viridans group strep
